

# C. Benefits

Cash

Health

Earth

RI wind energy benefits are based on the US Army Corps of Engineers Cape Wind report:

US Army Corps of Engineers

*RI will produce half the wind energy generated by Cape Wind and will receive half the benefits.*

**Narration:**

C. Now we want to know how important the benefits of wind energy are to you in forming your opinion about wind energy in Rhode Island.

In the following slides, we'll explore the benefits cited for windpower, covering those economic, health-related, and environmental. The U.S. Army Corps of Engineers Cape Wind Report is a major research document cited often in determining what benefits we should expect in Rhode Island. Since Rhode Island is planning about half the capacity of that studied for Cape Wind, about half the benefits cited in the report would be expected by that measure.
